You can see that Marylu Weber has several people coming to our advocacy page to sing her praises and tell us how wrong we are for the FACTS we are sharing about Marylu Weber and NDBH.

Here is something for you to chew on –

In 2020, in the height of the COVID pandemic (see message dated 8/19/2020 in top left corner) that put over 400,000 small businesses out of business, we at Chasing Horses, were one of those small businesses fighting with all we had to stay alive.

Marylu Weber took it upon herself to harass our followers and people who donated to our Go Fund Me that was set up to help our small business.

Here is one of MANY screen shots just like this from our followers that she stalked and harassed as she spread lies about our small business and worked hard to try to put us out of business.

THIS is Marylu Weber – President and founder of North Dakota Badlands Horse. THIS is what we asked her to put a stop to. We hoped to be able to remain silent and hoped that together we could handle these differences like adults. She refused and THIS is why we are exposing her and NDBH so people can see who they really are.

We are DONE being bullied and harassed and have decided it is time to call out our attackers.

Do you really know the Chasing Horses people?

Do you know how nasty they are to other visitors in the park?

Do you know how nasty they are to park staff?

Do you know they call anyone who disagrees with them liars?

Do you know they do what they can to disrupt the current management of the park?

Do you really want to support them? I know and I would never support them!

What a petty, jealous woman. Quite pitiful, actually.

I've been to your store several times. On my last visit I showed you a couple pictures I took of some horses. You identified each one and that meant alot to me. Thank-you for all you do .

Everybody is entitled to their own opinion. They should not however, try to push it on others.

[Carrie White](#) we agree and this was done to people they do not know - just people they stalked who shared our posts or donated to help our business during COVID

[BJ Eick](#) we have no idea - this is long before our advocacy group started. They have literally been harassing us for years. We are tired of it and it is getting to the point where their lies are getting so dangerous, we are fearful for our store and also even leaving my mom, who works with us, alone at all. It has to stop and Marylu Weber refuses to work with us to call a peaceful stop to all of this.

As much as I hate to loose any pictures of the TRNP horses I don't think I can continue to follow someone who chooses to do things like this no matter what. I can understand why you decided to take a stance. Best and safe wishes to you and all your family.

[Chasing Horses](#) I bet she just doesn't like that you are against the way they cull and sterilize the horses. I just know that is what it is all about!!

Also visited your store on our first trip to Medora this summer. Our family loved it. The kids were excited and chatty. The gentleman working that day was super friendly, even though he had to have felt like he was doing a press conference, with the rapid fire questions he got from my kids

Time to get an attorney!! You've always been so sweet when we've come into your store and even sweeter when my little girl visits and asks questions about her favorite house. Just because you like to see our wild horses actually stay wild doesn't give anyone a right to harass. Maybe the issue stems from you guys documenting the horses and taking the light away from them. My opinion is we should have as many groups standing up for these horses as possible.
